I’ll fight for you

We always thought
Our love was big and strong,
But often it was sick and wrong.
So we mixed up
Words of love and words of might
Words of heart and words of fear.
We made mistakes
And were wrong, you and me.
There was silence instead of words.

So
I’ll fight for you (3x)
I’ll fight to get you back
I’ll fight to get us forth

We now have learnt
What went wrong in our past,
Where we failed and went astray.
Now we both know
That love is no stimulant
No strong-hold for weaknesses.
And finally
I know that moments without you
Weren’t moments against me.

So
I’ll fight for you (3x)
I’ll fight to get you back
I’ll fight to get us forth

And in the end
I have learnt to let you be
Both who as well what you are.
We no more need
To play roles to keep our love.
At last we can fly abreast.
We no longer need
To play someone else’s part.
So we could fly side by side.

So
I’ll fight for you (3x)
I’ll fight to get you back
I’ll fight to get us forth

And even if you moan
In someone else's arms
I keep on loving you
Because I pushed you there

But
I'll fight for you (3x)
I'll fight to get you back
I'll fight to get us forth
I'll fight for you for me
An our common child
