No Way Out

Since we live apart
To find ourselves again
We grope for the truth
Are kept in the dark
(2x all)

Please please please
Won't you strike me a light
Or there is
No way out
No way out
No way out

Since you are gone
To find your own way
Your heart is shut off
And has a large lock
(2x all)

Please please please
Won't you give me a key
Or there is
No way out
No way out
No way out

Since you dwell alone
To know who you are
Your brain has become
A misleading maze
(2x all)

Please please please
Won't you pass me a map
Or there is
No way out
No way out
No way out

Since you are away
To be who you are
You built around you
A tall wall of stone
(2x all)

Please please please
Won't you give me a pick
Or there is
No way out
No way out
No way out

Since we stay apart
To find what we lost
I am slow to grasp
What we are looking for
(2x all)

Please please please
Won't you give me a cue
Or there is
No way out
No way out
No way out

(Please) don't be so hard
(Please) don't be so harsh
(Please) give me a smile
(Please) blow me a kiss
And there are
New ways in
New ways in
New ways in
